Re: Putnam Trail
IQ # IMA 00339517

Dear [REDACTED]

Thank you for your interest in the Putnam Trail. We have reviewed your comments and concerns and appreciate your input on this vital community matter. Many individuals have expressed differing opinions on development of the project, all of which will inform the proposed design.

The plans under development will utilize a permeable surface for the trail and take into account the New York State Department of Environmental Conservation's (NYSDEC) guidelines for conditions along the Putnam Trail. The NYSDEC review process will ensure that the final design satisfies all regulatory requirements before issuance of a permit for the start of construction.

If you have additional questions concerning the Putnam Trail project, please contact Andrew Penzi, Bronx Team Leader, at andrew.penzi@parks.nyc.gov.

Sincerely,
